BRYAN BACK HOME

Three Speeches a Day
Don't Tucker Him.

Asks Republicans What are
Their Plans.

Dave Hill Will Stump West for Bryan
Roosevelt Coming to Montana.

[A. P. NIGHT REPORT]

BEATRICE, Ind., Aug. 24.—Bryan has arrived in his State and will speak at the State line in the afternoon and arrive at Beatrice a few minutes past 8 o'clock.

He had been delayed for two hours en route, and he drove direct from the train to the station that he was to address. He had been met by Mrs. Bryan with a committee of representatives, including Hon. R. S. Webb, who was the Gold Democratic candidate for Governor in 1884. He is now supporting Bryan for the Presidency, because of Bryan's policy on the subject of expansion and his position over the meeting tonight. There was a large crowd at the station when Bryan arrived. The speaking took place from a highly-decorated stand on a vacant lot in the center of the city. The attendance was very great, and Bryan was received with a fine burst of applause when he mounted the stand. There were also frequent interruptions on the part of Bryan's admirers during the delivery of the speech.

Bryan had already made two speeches in other cities along the ordinary length for him, during the day, but he did not appear fatigued and spoke with his wonted vigor. He addressed the audience in general terms of the campaign. More than usual attention was given to the legislation concerning Potowmack. He used this as an illustration of what a Republican party would do in other countries if the opportunity should offer. This led into a discussion on the question of imperialism, and a good illustration of what could be expected of a Republican Congress.

Speaking of the Filipinos along the coast of the Pacific, he said: "Republicans, are you not ashamed to say that God would make Filipinos and leave them thousands of years until Hanna found them?"

Bryan taunted the Republicans with failing to furnish a plan for the control of the Philippines, and at this point said: "Republicans, have you any plan for the control of the Philippines? Has any member of your committee had, or your candidates have not, your plans? If you have not, all they ask of you is to let them know it, and then let them run it to suit themselves."

"A man will leave Beatrice tomorrow for Los Angeles, and the afternoon will night, for Omaha, where he will speak at night.

CONFIDENTIAL BRYAN.

Believes Republicans Will Leave the Party.

Thinks They can Serve Their Country Better as Democrats.

[A. P. DAY REPORT]

MANHATTAN (Kan.), Aug. 24.—Bryan began the day with a speech here at 10:30 o'clock before a large audience. The speaker received careful attention and liberal applause. Bryan said he believed most Republicans would be ready to vote for him, convinced that they could serve their country better by leaving it than they could remain in it. In the first place, he said, the Republican party had been a silver party; now it had become a gold standard party. It had supported the trusts, now it processes substitutes a bill to tax the trusts.

It had therefore denounced trusts, now its leaders were found generally defending the trusts. He asked what the individual Republicans, especially the Republican farmers, were thinking out of the trusts.

"We do not object to the honest accumulation of wealth," he said. "What I object to is that the rich accumulate a few men in their robbery of the masses and then denounce everybody as an anarchist that does not like to be robbed. I want you Republicans to see the change that has taken place in the Republican party. If you cannot see the change that has taken place in your party's position on those questions, you come up since the Spanish war was in August."

The "Miramar."

The only house fronting the beach furnished rooms with verandas, dining room, sitting room, and kitchen. Furniture was simple, and the house was well equipped with all the conveniences.

FIGHTING IS ENDED.

(A. P. DAY REPORT.)

PEKING, Thursday, Aug. 25.—[By Atlantic Cable.] The allied troops have surrounded the Imperial City and stopped all entries to the gates except those from entering, reading instructions from their governments. Gen. Chaffee says the fighting is ended.

The Japanese troops have relieved the Peitang Cathedral, where fifteen French guns and forty French and Italian soldiers have been isolated and have been two months. They found that five had been killed.

Captain Reilly, of the Fifth United States Artillery, who was killed before the allied powers arrived at the legation grounds, Gen. Chaffee, British, and Japanese generals, and many civilians were present at the interview. The American troops are encamped in the grounds of the Temple of Heaven. The Chinese are supposed to have fled northward.

GREAT BRITAIN'S REPLY.

Answer to China Similar to That of Germany.

Li Hung Chang Will Negotiate for the Emperor.

(A. P. DAY REPORT.)

NEW YORK, Aug. 24.—A dispatch to the Tribune from London says that the reply of the British Foreign Office to Li Hung Chang, conveyed through the Chinese Minister, has not yet been delivered. The may be suspended by the distance of Lord Salisbury from London, and the fact that all official communications have to be transmitted to a remote village on the France-German frontier, where the Foreign Secretary is now resting.

The reply, however, is settled in principle, and is similar to that of the German government, which has just been given to the Chinese Legation at Berlin. Great Britain will declare that it cannot enter into negotiations, owing to the lack of a properly-accorded representative on the German side.

Minister Chia Lo Feng Luh, Chinese Minister here, persists in the view that Li Hung Chang has received full authority to negotiate with the Emperor. He also maintains that he is still in communication, though not directly, with the Emperor, by means of the Viceroy of Kiangsu.

No official news from China has, however, been received at the legation for the last three days.

Mr. Conant, U. S. Consul to the British attache of the Chinese court, and their direct competitor with Peking, is making considerable impression, and it is reported that Mr. Conant, with his wife and servants, are exceedingly likely to have been snatched from the strain through which Sir Claude Macdonald is to be.

The absence of direct news from Peking for the last few days continues to excite apprehension in the circles. The undoubted fact remains of an outbreak at Hankow, and though this was promptly suppressed by the Viceroy of Hoo Po, it is feared that the anarchy is spreading, and may be increased when the flight of the Emperor is known.

The report of some officials journals that China is at war with China, yet officially accepted by the British government, which has not broken off relations with the Chinese Legation at Berlin, is a sign of further complication.

In the afternoon the operations were halted and a conference of the generals was held, which resulted in the withdrawal of the American troops.

At the conference, except the Russians refused not to violate the Imperial City, and decided that the object of the expedition had been accomplished, pending further advice from the interior.

The Russian general stated that his government had declared war on China.

SEVENTH WILL NOT GO.

PATIENTS SENT WEST.

(A. P. DAY REPORT.)

HANFORD, Aug. 24.—Owing to the recent change in the aspect of the Chinese situation, siege battery O of the Seventh Artillery, now at the Presidio, will not sail for China on the Belgian King as originally intended. It will probably be assigned to Honolulu or San Francisco.

The balance of Light Battery C, Seventh Artillery, commanded by Capt. W. P. Stone and Lieuts. Berry and Newbold, has arrived from Fort Adams and is now at Fort Bayard.

Twenty-two patients were sent yesterday from the general military hospital to capture points for further treatment. The patients, mostly from Fort Bayard, N. M., and rheumatics to Hot Springs, Ark., where every effort is made to restore the sufferers to perfect health.

CHAFFEE'S CASUALTIES.

CABLELED FROM TIEN-Tsin.

(A. P. DAY REPORT.)

WASHINGTON, Aug. 24.—The War Department has received a cablegram from Gen. Chaffee, dated Tien-Tsin, giving the names of the wounded. War Department officials construe this as indicating that Gen. Chaffee returned to Tien-Tsin from Peking.

It is stated at the War Department that the only reason for thinking that Gen. Chaffee is still at Tien-Tsin is because the report signed by him states that the date is August 21, and the date is August 21 and the other August 24. The date of the departure of that returning ship has been learned from Gen. Chaffee indicating that he is at Tien-Tsin.

DEAD AND WOUNDED.

WASHINGTON, Aug. 24.—The War Department has received the following list of deaths from Gen. Chaffee, via Taku Cable:

Adjutant-General, Washington: Tien-Tsin, August 22.

Co. M, Fourteenth Infantry:

CHARLES MORGAN, dysentery.

Co. M, Ninth Infantry:

JOSEPH L. FRITSCH, gunshot wound.

August 21, Co. M, Fourteenth Infantry:

CLINTON W. GRAHAM, Company I, Fourteenth Infantry, shrapnel wound.

GERMANS AT PEKING.

(A. P. DAY REPORT.)

BERLIN, Aug. 24.—A official dispatch from Berlin, dated August 18, states that the German forces, which arrived at Peking August 18, and that the marine battalion reached Ho Si Wu August 2.

AWAITING INSTRUCTIONS.

TELEGRAPH SERVICES POOR.

(A. P. DAY REPORT.)

LCM'DON, Aug. 24.—[By Atlantic Cable.] While the commanders of the allied forces are waiting for instructions from their governments as to what to do next, in the present condition of the telegraphic services, it will probably take ten days, work of repairing the railroad beyond Tien-Tsin is progressing slowly, and the transportation of supplies by boats on the Pei Ho River is improving.

According to a dispatch from Hong Kong, dated August 22, turbulent mobs are devastating the districts of Fui Kien and Kiang Su. It is added that a mandarin with 300 Chinese troops sought to cut the line of communication between Amoy and Tien-Tsin, but were driven back with small loss on the part of the allied forces.

Official advice from Peking, dated August 22, says that the Chinese are continuing to burn the allies' residence.

THE CHINESE SITUATION.

There were practically no new developments in the Chinese situation yesterday, and but little of special interest in the way of news.

A dispatch was received from Gen. Chaffee dated at Tien-Tsin, giving a list of the casualties there. This is construed as indicating that Gen. Chaffee has returned to Tien-Tsin, though there is no explanation of his reasons for so doing.

Members of the Cabinet were more reticent than usual after the close of the session yesterday. It was stated, however, that the subject of an extra session of Congress was not brought up, and that there is little present likelihood of such a session.

Our government has received no official or well-authenticated information that the Russian government has declared war on China, or that she contemplates such action.

There have been further attempts on the part of the Chinese to cut the communications between Peking and Tien-Tsin, but these attempts have been frustrated by the vigilance of the allies, and the Chinese have been driven off in each case.

The work of repairing the railroad between Yang-Tsun is progressing steadily, and the transportation of supplies by boats on the Pei Ho River is improving.

The statement is repeated that the allied forces have burned Prince Tuan's residence.

A Hongkong dispatch, dated August 24, states that mobs are devastating portions of the provinces of Fu Kien and Kiang Su, and that Chinese soldiers have been despatched to quell the riots.

A FRAUD OF THEIR PLATEFORM.

Mr. Bryan is sounding the keynote of the Dem-Pop-Sil agitation this year in "Liberty for the Filipinos! Equal rights for all!" at the same time the southern wing of the party serenely distinguishes the colored population of their own country, and, instead of trying to elevate them, lowers them in the scale of American citizenship. How can any rational being believe their protestations of love for the dear, sweet Filipinos abroad, when they are so inconsistently intolerant with the home product? It is no convenient to work upon the sympathies when the subject of the wailful argument is so many thousand miles away that he is certain never to obtrude his unwelcome corpulence into the immediate neighborhood of the weeping sympathizer (for revenue only!).

The Republican administration, with its armies fighting the Filipinos, is today the best friend the little brown men have in the world. The very people who howl loudest for the Filipinos would be the first to turn him down, if the occasion required. Precedent? What did they do to the brave Dewey? Would they be any more considerate for the welfare of the Tagalos than they have doubted "imperialism."

This is begging the question; it is begging all the questions of the campaign. It is at once a confession of their own inanity, their own paucity of resources, their own lack of political common sense.

The effort to convince the American people that the country is going straight to perdition will fail, as a matter of course. It will fail for the simple, but all-sufficient reason that the American people are not fools.

And we have heard the same cry of alarm from the same source (with some variations) from a time so far back that the memory of man hardly reaches to the contrary. This same party of gloom and calamity told us that the country was going to the dogs because of tariff protection; because of the gold standard; because of various other things too numerous to mention in detail. But the nation still survives and is tolerably pros-

perous, notwithstanding the calamitous forebodings of these prophets of evil. Our opponents are obviously afraid of their own platform; afraid to discuss or defend the principles which it enunciates. It is because of this fear that they are raising, or seeking to raise, a great dust of doubt and dismay over an issue which has no foundation save in their own disordered imaginations. This sort of political cowardice will neither deceive the American people nor win their approbation.

EDUCATED CRANKS.

The Times has a regular carrier service at Long Beach, Santa Monica, Ocean Park, Redondo, Terminal Island, Catalina and San Pedro. City and out-of-town patrons who intend locating at any of these places may have the paper delivered to them promptly and regularly every day by leaving notice of desired change of address at the Times office, or with any of our agencies.

It has long been a marvel to many people why Boston should seem to be headquarters for this class of abnormally constructed minds. But to any one who reasons along these lines, the explanation is simple. Boston has a world-wide reputation for culture and intellectual development. With this development follows naturally the legitimate and wholesome discussion of social and political economy. The crank, however—he with the frank brain and the Chinese penchant for seeing everything backward—has taken his boneless, bottomless intellect to school also; and the result is a polished monstrosity; a mind filled with the skeleton of wisdom, from which staves forth the glassy eyes of the bug that has cost us the lives of many of our most illustrious men.

What a pity it is that the educated crank cannot be sorted out from among us and placed away upon some remote island of the sea. Indeed, now that we come to think about it, the bottom of the sea would answer the same beneficial purpose. It would certainly be interesting to note their success in running a government, entirely among themselves, along the lines laid down and howled forth from year to year, to the great disgust of every good citizen who carries about with him a love of good government and an uncracked brain.

In this class of educated cranks who are trying to assume control of the American government. They lay claim to vast wisdom; but their arguments are the tomfoolery of snobility or extremely early adolescence. They "point with pride" to their achievements in the past, when such achievements exist only in the recesses of their own discredited minds. They foretell wonderful things that never come to pass, and promise to perform things that the wise man knows would be nothing short of a miracle.

The American voter who loves his country and hopes to see it rising to further dignity and usefulness among the nations has to face many serious problems; but the most serious of all is not the one of 16 to 1, imperialism, militarism or empire. It is the uncanny, the treacherous, the Crank with the Educated Mind.

INCONSISTENCY.

The battle cry of the Dem-Pop-Sil aggregation this year is "Liberty for the Filipinos! Equal rights for all!" at the same time the southern wing of the party serenely distinguishes the colored population of their own country, and, instead of trying to elevate them, lowers them in the scale of American citizenship. How can any rational being believe their protestations of love for the dear, sweet Filipinos abroad, when they are so inconsistently intolerant with the home product?

The Republican administration, with its armies fighting the Filipinos, is today the best friend the little brown men have in the world. The very people who howl loudest for the Filipinos would be the first to turn him down, if the occasion required. Precedent? What did they do to the brave Dewey? Would they be any more considerate for the welfare of the Tagalos than they have doubted "imperialism."

This is begging the question; it is begging all the questions of the campaign. It is at once a confession of their own inanity, their own paucity of resources, their own lack of political common sense.

A IMPORTANT INVESTIGATION.
To most people geology appears in the light of a dry and uninteresting subject, and one which is of comparatively little practical use, being classed along with astronomy and other kindred sciences which deal chiefly with the abstruse, far-away and problematical. When, however, we find the geologist coming to the assistance of the miners and pointing out where the deposits of precious metals may probably be found, it begins to dawn upon the mind of the average citizen that geology may after all be of practical value to the world.

With maps showing where and to what depth wells may be successfully bored, millions of dollars will be saved to Southern California land owners, and the development of this section will be greatly facilitated.

It is not, however, only in relation to minerals, including petroleum, that geological investigation has proved of great value to practical workers.

H. Newell, of the United States Geological Survey, who is now in Los Angeles, on his annual tour of inspection, has much to say in regard to the valuable work that is now being done by the Survey in making a thorough investigation of the water resources of the West. Not only are the streams being measured, but careful estimates are made, showing with precision the various depths at which water may be obtained from wells over a certain extent of country. Quite printed colored maps are published from time to time, showing at a glance the various depths at which water may be found. Most of this work has been done so far in South Dakota, but Mr. Newell states that preparations are being made to carry out a similar investigation in Southern California.

Employment was exceptionally bad in June four years ago. See Bryan's speeches that summer. Republican rule always makes employment exceptionally good.

A CHANCE FOR PROTECTION.

EDUCATED CRANKS.—The Times statistics show the United States by countries of earthware, china, porcelain, parian and bisque for the fiscal year ending June 30, 1890, together with comparisons of totals for the two previous years, 1889 and 1890, and the value given being the foreign market value.

A dispatch from Fresno tells how two youths, one white, aged 17, and the other colored, age not given, were arrested for throwing a switch at the railroad depot, causing an engine to crash into a freight train. It is added that the act was a "boyish freak." Just so! And later in life it will add to our land; when banks and capital will be unheard of and we will be a nation of rag-tags and Wander-willies!

Good times bring a larger demand for luxuries. That is the secret of this business. Better to protect these industries and make the goods at home. Keep William McKinley in office and it will come.

DON'T SHOUT TOO SOON.

THE window-glass manufacturers of the United States and Plate Glass Jobbers' Association, at Niagara Falls, have decided to advance the price of window glass and advertising.

Do not shout "The Trust" too soon. The wages in the glass factories were raised 10 per cent. two weeks ago.

PAP OR PRINCIPLES?

M. R. BRYAN in his Topeka talk, in accepting the Pop nomination, said:

"I desire also to express my deep appreciation of the liberality of opinion and devotion to principles which have led the members of your party to enter the ranks of another party in support of a candidate."

Billy Ray makes a speech here.

He is not a Democrat. He is a simple Populist and has been so known by that name for many years.

They did not go into another. They did not go into another. They did not go into another. They did not go into another.

It was the Democrats who crossed the boundary line of party to seek a candidate to whom they could give their support. Other not principles is the great aim of the followers who follow St. Andrews, who turn to the "Victors" below the spoils."

be instructive to the enthusiasm of misguided Americans who some perversions of imagination, digestion, fancy, and the like, have caused us to believe that we can destroy our republican friends and enemies by the purpose of creating an environment of the rest of the people.

With China the President has exactly what he did with Cuba and Porto Rico, and is acting in relation to the Philippines best for the good and glory and prosperity of the nation. He has only resorted to such force as was necessary to save his country from being a semi-imperialist in the world. He could have been as wise and more far-sighted if he has been. In his position with him, it will always be a man's duty to remain as wise and prudent as the circumstances permit. We have paid our dues to our country and our own part, we believe, and all indeed that view at the moment.

PHILIPPINE POLICY.

CONTRIBUTING money to help Bryan is better policy than to help the Filipino Juntas than help with which to kill American Filipinos. But they will do things, apparently, which are at times very large sums of money, and they are evidently doing so. But what is still more important is the progress made in the Philippines. We would see the army and government as it is in India, and then we would be in a position to help them as in India.

In other words, the United States government, if Bryan can have responsibility to other nations equal governments in the Philippines. How many men are there on or how many money that might take out of the Philippines would be in accordance with the Tagalog, without being able to give it in any way to the government itself?

Answered only by a great man, Bryan, who believes it is his work to help the people of the Philippines. Who will present the argument from the Tagalog Bryan allies?

BIGGERS OPTIMES BRYAN.

THEIR years ago twenty-two men gave their electoral vote to Bryan. Bryan and twenty-two men McKinley.

The Bryan State covers more than the McKinley State, but the Bryan State is more popular with voters than the McKinley State.

It is in the Bryan State where the Demo-Publicans are most numerous. They are another pertinent factor in connection. Who will present the argument from the Tagalog Bryan allies?

ALL ALONG THE LINE.

Mexicans of San José are planning for memorable celebration of the independence day of their mother country.

The Herald Journal reports that the stage engine engaged in the hauling of lumber from the Dillon mill has now made twenty-seven trips, with an expense for repair of \$100. A few days ago it pulled out five trucks with 6,000 feet of lumber on them.

A stage owner of Merced has just contracted with W. L. Elliott of San Francisco for an automobile coach capable of carrying a dozen passengers and 800 pounds of baggage. The coach will be built with \$10,000. The amount is stated to be a balance of \$6,000 deposited with regard to which no satisfactory accounting has been given.

THE PUBLIC SERVICE: DOINGS IN THE LOCAL GOVERNMENT DEPARTMENTS.

EVENTS OF THE DAY.

The trolley franchise fight was begun before the Board of Public Works yesterday. The Los Angeles Railway Company showed its hand and it is apparent that the company will bitterly oppose the advertisement of franchises and the Traction applications are changed so that it has an equal chance to obtain the concession.

The Gas and Light Committee of the Council yesterday took under consideration the bid of the American Electric Company for the franchise rights for one year from January, 1901. The whole lighting situation was thrashed over.

The Board of Police Commissioners has decided that it will not modify its order for the removal of private boxes from saloons and has ordered the chief to report the places where such boxes are used for immoral purposes. A number of revocations of saloon licenses is almost certain to result.

It is probable that in the apportionment of city funds to the several departments the City Council will make provisions for ten additional policemen.

Fred Schmidt began a damage suit against the company to the Council. The city commissioners have agreed to have such a street railway system, which has built up and benefited every section of the municipality to the extent that it has produced an equivalent sum to none and the service rendered is most excellent. It is a duty which the Council owes the public to aid in the extension of a line which means so much to the community. It is to the interest of the whole city that the people to whom the franchise is given are of good health or for the love of humanity," said Mr. Dunn, "and I don't believe that the franchise should not be granted." Judge, what direct reason have you why the franchise should not be granted?" "I believe," said Mr. Anderson, "that your company is not acting in good faith and that you are here merely to increase car lines built by the Traction Company."

After some further discussion the board took the matter under advisement. A report is looked for shortly.

SEEKING LIGHT.

NEWLYWEDS CONSIDERED.

There was long hearing before the Gas and Light Committee of the Council yesterday, with reference to the new bid for street lighting presented by the Los Angeles Electric Company, August 6. The first bid was declared unsatisfactory and made a sweeping resolution covering all saloons and ordering the removal of all the boxes, a better plan and one which the committee believed would be that of taking up each individual case.

"I would suggest that if any person should report to this board that any saloon is using boxes for immoral purposes," said Mr. Finlayson, "that saloon man be given a hearing and then revoke his license, no matter who he is. The saloon-keepers, or those of them who form the association of which the company is a member, is to their business interest to weed out the disreputable places, and I am authorized to announce to you gentlemen that the Royal Electric Company will do this." The committee yesterday prefaced his remarks by saying that the new bid was the best.

Dr. Moyne Wiles was the next to speak. Dr. Wiles is also anxious that the franchise be granted to the company interested in the Montana tract just north of Echo Park, and believes that the Council owes the citizens of the section something in the way of improvement and to enhance the value of their property. One of the most essential requirements, he believes, is a well-developed street railway line.

The property-owners in the Second Ward have for years paid taxes on the property in question and are entitled to some consideration on that score. We bought the property years ago for more than we can get for it now and we see but one way out of difficulty and that is to improve the property and bring its value up to its original requirements. We believe it is the right price paid for it. To do this is the only way to prevent the company from getting away with a well-developed street railway line."

We believe it is the right price paid for it. To do this is the only way to prevent the company from getting away with a well-developed street railway line."

"We are paying heavily for the improvement of Lake Shore avenue and the next time we have a first-class street railway facility we will be in a position to compete with the main streets of the city. We want the Temple-street road improved so that it may only take second place to the Second Ward street-car line into the section. We demand either an increase in the assessment valuation and the Second Ward proposes to make that an issue in the campaign. Just now we want better transportation facilities and we propose to get them in some way."

C. H. Sessions' of the "Angeleno Hotel" also spoke favorably of granting the franchise. It would be of benefit to the whole city, which would increase the value of property in the section and likewise its tax base. G. C. Gorleitner, of the Gorleitner Company, urged that the franchise be advertised as a favor to the residents of the Second Ward, many of whom were dependent upon the Second Ward for transportation to and from the city. C. F. Gurdthie and I. W. Stewart, Esq., also urged favorable action.

J. W. Dunn, attorney representing the Los Angeles Railway Company, then took the floor, and by his first sentence indicated that the company had agreed to make a contract to make a fight.

"There are clauses in the franchise applications which would be of considerable addition to the street-railway facilities of the city. Should the Traction Company enter the Second Ward and into the First Ward, it will mean competition for the Temple-street electric railway, and the present result will be the dismemberment of transit facilities throughout the section. Certain it is that nearly all the people con-

tiguous to the route are in favor of the franchise and will make a decided effort to induce the Council to take favorable action.

The Traction Company's franchise is important. It is not about this line that the fight centers. It had been thought possible that the Los Angeles Railway Company would be successful in securing this franchise, and in consideration of the concession would not enter the field to oppose the Traction Company. The franchise would be the road into the northwestern part of the city. Such does not prove to be the case.

The Los Angeles franchise application is not the only one that has been filed with the Council. The Traction Company has filed a petition for a franchise on the corner of First and Broadway, in the business section of the city, and the application stands the same as that made by the three franchises as follows:

"Beginning at the intersection of Eleventh and Hoover streets, and running thence easterly on Eleventh street; thence easterly on Eleventh street to Georgia street; thence easterly on Georgia street as far as the line there connecting with the existing line of the Los Angeles Traction Company.

SATURDAY, AUGUST 26,

POLITICAL DOINGS.**Socialist Labor Party's State Convention.****Two Local Democratic Assembly District Caucuses.****Democrats of Seventy-fifth District Declare for White for Congress.**

The Socialist Labor Party has stepped into the political arena. Yesterday the party held its first convention as a recognized political organization. Delegates from the entire state, twenty-four from all over the State, met in Foster's Hall and nominated Congressmen and Assemblmen and Presidential Electors.

It was the quietest political convention ever held in this city. There was no excitement, no ballots thrown into the air, no shouting, no cheering. The nominees for Congress in four words and for the Assembly in bunches. When the secretary lost the tally sheets, no one could remember who had been nominated. The nominees themselves accepted their honors with quiet indifference. The speakers there were called upon to make a "few well-chosen remarks" in acceptance. No one seemed to think it worth while.

There was nothing about it to make them cheer. Hungry little street boys, standing in front of a candy store, had no speech to offer, when two or three of them agreed upon what would be nicest to eat. They knew they can't buy.

Yesterday, a reporter said to one of the men who were running things, "What is the use of your doing all these people to be elected do you?"

"No," said "probably not. We are not working to get people elected. But our day is coming as sure as fate. A few years ago we Germans were but sixty Socialists; today there are 225,000. Our progress is just as sure here. We can wait. One day there will be action, and for us, it must come, for it is logic."

What a lot of denouncing they did! They denounced political capital; denounced the government; denounced Socialists; denounced other brands of Socialists; denounced the offspring of their own parts. Yet they did it as though they were the most momentous campaign in the history of the world. All the Democrats of Southern California were in a position to do a great service to their country. They had at their disposal the largest number of voters in the nation, and the most of the population, who had the welfare of the people at heart, and who was composed of the best men in the country. This man could not only be triumphantly elected to the House, but once elected, the speakership would be his. He would be a good Congressman, and he would be a good President.

Only one man spoke with anything like bitterness. He was an American. His name is Fred Faulkner, and he is a burglar. The other Socialists were won by him to make and lukewarm applause, more as though for courtesy than for any other reason.

His remarks were not of cold logic. He said in a passion, "our masters grind us down for all we are worth to them. They bind us with their police, and the other Socialists are won by him to make and lukewarm applause, more as though for courtesy than for any other reason.

His remarks were not of cold logic. He said in a passion, "our masters grind us down for all we are worth to them. They bind us with their police, and the other Socialists are won by him to make and lukewarm applause, more as though for courtesy than for any other reason.

Once somebody mentioned speeches. La Rue said, "They are not good." They seemed to say, "Just what the oil thought. 'Yes, speeches. That's what I want to get to. I am tired of this other stuff.'"

Most of the work of the convention was done in the district sub-conventions. These met in anterooms and the like at which the members of men for Congress was a caution. It was done by acclamation. Never but one candidate named for any office and no speeches whatever. The last was a great comedy.

The nominees from this district for Congress is Fred Nelson Tuttle, a competitor from San Pedro. The nominees for Assembly are: Fred Nelson Tuttle of Chatsworth Park, from the Seventeenth; Joseph Witten of Alhambra, Seventy-first; John Jansen, San Pedro, Seventy-second; St. George Speed, Alameda, Seventy-third; August Moritz, Los Angeles, Seventy-fourth; W. S. Skinner, Seventy-fifth.

For Senator: R. B. France; John McKeehan, Twenty-ninth; George Speed, Thirtieth; G. B. Wright, Thirty-third; J. A. Roulston, Twenty-fourth. All of these are from San Francisco.

In a fit of gallantry, J. A. Roulston, a woman tutor of San Francisco, was chosen to speak for the Assembly from the Thirty-ninth District, but the chairman of the convention held that she was not eligible.

Opposition — Congressman, George Edwards of San Diego, Assemblmen, J. H. Smith and A. Seward, Second District—Congressman, A. O. Warrington of Stockton.

The platform denounces the off-shooting Socialists, known as the "Kanarians," very bitterly. It indorses the party of John Francis Maloney, a machine of Tammany, and Valentine Kemmell, a Pennsylvania glass-blower, for President and Vice-President. It rips up the back of the Constitution, and the delegates resolved that "We treat with contempt all such parties as tools of the capitalist class, and support the only party that fights for the working class."

The convention as a whole nominated the following Presidential electors: J. O. Church, First District; R. F. Ferguson, Second District; T. H. Low, Fourth; J. C. Craig, Fifth; G. S. Holmes, Sixth; A. H. Hasan, Seventh; Harry Kruze and A. C. Wirtz, Eighth.

BUSINESS.

FINANCIAL AND COMMERCIAL

OFFICE OF THE TIMES.
Los Angeles, Cal., Aug. 24, 1900.
The following quotations on rates of citrus fruits in the East yesterday have been wired to us from the Times: Prices were uniform for them to be published simultaneously in other journals. When so published, they are simply reprinted from the paper.

GROCERIES IN THE EAST YESTERDAY

JOBBERING DEMAND LIMITED.

BY DIRECT WIRE TO THE TIMES.
NEW YORK, Aug. 22.—(Exclusive Dispatch.)—A large number of California oranges were sold this week, all Valencia. Fancy regulars, 33¢; small, 26¢; choice, 25¢. Limited jobbing demand. Thirty-four thousand boxes of Valencia oranges were sold this week. Jobbers report a very limited demand, with limited shipments. There are only 43,000 boxes en route; 200,000 in better demand. Lemons are running undemand; 100s, 47¢; 50s, 36¢; 25s, 28¢. The lemon market is now weak; probably will be sold Tuesday. The weather is moderate and it is predicted it will be warmer.

Citrus-fruit Shipments.

There were shipped East from Southern California on Thursday four carloads of oranges and ten of lemons, making a total for the season of 17,342 carloads.

FINANCIAL

LOCAL MONEY EASY. A leading broker states that the local supply of money is ample for all purposes. The demand by no means urgent. The mortgage obligations of holders of real estate in all parts of Southern California have been marvelously reduced in the last few years, and this liquidation is steadily going on. When a note becomes due, the holder can always get it paid if the debtor does not want to lift it. If the creditor is usually willing to let it run.

FINANCING EUROPE. In an editorial the London Times suggests that without the United States debts had been reduced during the last four years. It has not yet ceased to be a debt nation.

Reference is also made to the financial condition of the Bank of America, and the editorial adds: "Nothing could suit the Americans better, among the non-American securities, than the obligation of the Bank's government." Not only have the Americans considerably reduced the permanent indebtedness of Europe by buying American railroads and ships and removing them when in the autumn of 1898, London houses refused to renew leases of German bills previously held here, but have been doing so for a short time in large numbers transferred to New York, where they have remained ever since, and have doubtless been added to the United States debts also.

It has been evident for eighteen months or two years that American finance houses possessed large funds which they have invested in the home market satisfactorily, and the higher interest rates at present in Europe attract some of this money."

POINTS ON WHEAT. The wheat crop of Oregon is estimated at 40,000,000 bushels by the Portland Oregonian, and it is stated that 7,000,000 bushels of oil wheat are produced there.

According to the Illinois crop report the condition of wheat is better than expected. The indicated winter crop is smaller than the 19,000,000 acre spring wheat. Area in corn, 5,051,000 acres or 1,118,000 increase; average for State, 94. The government only made what was expected.

The Cincinnati Price Current is out with another estimate, this time for a crop of 35,000,000 bushels, including 215,000,000 bushels of winter wheat. It is looked upon as rather an outside estimate.

The estimate of the Minneapolis Journal is 30,000,000 bushels, the greatest crop in the three Northwestern States, against the official estimate of 15,700,000 bushels last year.

"We will have dollar wheat before the end of the month," says the general director of the Secretary of Agriculture James Wilson. The Secretary says: "The outlook for good prices will never be brighter than it is now in the American wheat crop this year which will probably amount to 30,000,000 bushels. This alone would serve to make the wheat yield more than sufficient. The primary cause for an advance is the condition and outlook of the home markets."

POOR OLIVE CROP IN FRANCE. In a recent report Consul Skinner of Los Angeles states that the olive crop prevails in his district that the olive crop of France will be a disappointment next year, as it was last. Weager reports that the olive crop in the Algiers point to much the same yield as last year. Consul Skinner adds: "French farmers are disposed to abandon the olive culture, as the price in recent years the prices obtained for the oil have not been satisfactory. Spain and Italy, with cheaper land and climate, are offering a keen competition too severe for Southern France. It is doubtful if olive oil will ever recover its old-time place, as many vegetable oils are being produced in increased quantities from year to year, and are coming in the estimation of the public."

The Southern California olive crop is good.

GENERAL BUSINESS TOPICS.

FOR THE FARMERS. The Department of Agriculture is securing good stocks of the best varieties of European and African macaroni wheats and Hungarian bread wheats, says Bradstreet, which it expects to furnish the best for great extension of the macaroni manufacturing industry in the United States. The experiment also is expected to create a demand for the production of the macaroni wheats in the West. The results of the experiments now in progress show them to be adapted. Formerly all the macaroni manufactured in the United States was imported from Europe, but recently macaroni manufacturers have been established in this country.

CHINESE WAR AFFECTS COTTON GOODS. From the Manchester Guardian of July 19 we learn that representatives of thirteen cotton-spinning companies in the British dominions, a combined total of 1,800,000 spindles have unanimously resolved to curtail production by stopping their mills for a time. The reason given is that owing to the prices and the scarcity of cotton, also on account of the poor demand for yarn. Although the Osham Mill Co., Croydon, has not yet taken action as a body, it is stated on good authority that, as Oldham wakes approach—the last Saturday in August—there will be a general stoppage on an extensive scale at mills using American cotton. At Shaw the officials of the mills have the matter under consideration, and in due course a movement of the kind will be made. The dealers in the markets of the West, which were most efficient in the cotton trade, are taking action. The Cornhill is suspending it. Crop advice continues as follows:

RUSSIAN TRADE. To facilitate the

export trade of the United States to Northern Russia, a direct line of steamers has been established, plying between San Francisco, New York, New Orleans and St. Petersburg. But, unfortunately, this line labor under disadvantages, owing to the lack of sufficient return traffic. Both bridge-builders and railroad men are willing to place orders for the coming year's supplies. More good news comes from the Pacific coast, where the Chinese situation is improving. St. Petersburg, who stated that, in spite of the lower prices prevailing in the United States, the cost of our coal there was \$1.20 per ton, and the coal export to China was \$1.20 per ton, April 26, 1900, for English coal, which have to bear only 5¢ (12.12) for freight. How and what to get the price down is the question. Another sharp decline has taken the price of tin to 12¢ per pound, and copper is down to 12¢ per pound. Further Saturday, touching the lowest prices of the year, the Chinese market shows its willingness to market by farms, which are offered at primary market prices, received at 10,000,000 last year. Large quantities of tin may be supplied on favorable terms.

This is not only on account of the export, but also augurs the middle man's demand. Lemons are running under-sized; 100s, 47¢; 50s, 36¢; 25s, 28¢. The lemon market is the only market in town; probably will be sold Tuesday. The weather is moderate and it is predicted it will be warmer.

Citrus-fruit Shipments.

There were shipped East from Southern California on Thursday four carloads of oranges and ten of lemons, making a total for the season of 17,342 carloads.

LOCAL PRODUCE MARKETS,

LOS ANGELES MARKETS.

Dry salt clear meats are firm. Rex hams, 10¢; bacon, 12¢; ham, 14¢.

Hides, wool and tallow make no improvement. They are dull and weak.

Fresh meats are firm.

Butter is firm. Receipts of casein creamery and extra local is 57¢ cents. There is no good creamery selling under 55 cents.

Butter, cheese and eggs are firm. The Pacific Coast is getting a good deal of it.

Bradstreet's Review.

NEW YORK, Aug. 24.—Bradstreet's tomorrow will say that contrary trade currents are still strong, but that the balance of the entire situation, but good and unfavorable, is in favor of the market. The balance which accords well with the weather conditions and the particular season the market is in, is favorable to the market. The tide of trade was about as it was in the week previous. Today's wool was up 10¢ per pound, and buttery onions are unchanged. There is no pressure to sell, some small, but the price of stocks was much held after election. Factories are still busy, though the market is more favorable, and shoe districts and it is evident that earlier purchases are being held. Prices are still and, though the market is more favorable, purchases are held.

Ranch eggs are steady at 22¢ to 23 cents. Most standard eastern are selling at 17¢ to 18 cents. Overalls are steady at 17¢ to 18 cents.

Honey is coming in freely. The market is firm.

Green onion potatoes are steady at 30 cents and one lot of extra-fine potatoes are being held for \$1 a cent. The top for local potatoes is 25 cents. White onions are 15¢ to 17 cents a box. Yellow onions are 12¢ to 15 cents. Yellow onions are 12¢ to 15 cents. Shipping stock will bring 35¢ a cent.

Young live poultry is in pretty good condition. Pigeons are scarce. Doves and ducks are slow.

Fire Breaks Out Again in the Mountains.

One Work for Rangers—Small Blaze in Downy District.

WILDFIRE. (Regular Correspondence.) Fire has broken out in the mountains and the latest news are that the fire is still burning. Smoke is rising at 8 o'clock this afternoon a point north and west of one of the confusions which burn in the west fork of Gabriel river, but which was not burning yesterday. Smoke will be seen Saturday afternoon at 8 o'clock at the residence.

The funeral of Mrs Eva Elensteiner, who died Tuesday on a train at Raton, N. M., will be Saturday morning at 11 o'clock at the undertaking room of Reynolds & Van Nuys.

The case of the people against William H. Frackleton, for the alleged post-support of his son, post-supervisor of Forest Commissioners, has been adjourned a force of eighteen men and them out at 8 o'clock this evening in charge of Ranger Lou Newell. These men probably will reach the early Saturday morning, when they should have a number of arrests in the burned district for a purpose of preventing the spread of fire which might be started from smoldering embers of the previous

burnt location of the present fire known to a certainty, as the cause of the numerous smoke signals which were sent up.

Mr. W. L. Lingenfelter, of Santa Monica, has returned from a visit with friends at Santa Monica.

Mrs. Delos Arnold is visiting at her home in Iowa.

Postmaster J. W. Wood has gone to San Francisco.

Prof. W. B. Frackleton and wife are at the beach.

Harry Geoghegan has returned from Catalina.

Bogian horses, 15 cents today. Chickens, ducks, etc. Halsted, 15 South Fair Oaks.

LONG BEACH.

MYSTERY FAKE. LONG BEACH, Aug. 24.—(Regular Correspondence.) The local peace officers are investigating the finding of a body of a child near the Altimontes school and its mysterious disappearance. The discovery was reported Thursday by a woman living in Altimontes. According to her statement to a representative of the Times she was walking near the Altimontes school Thursday. There were some low shade trees near the roadside and she noticed that her dog was attracted to a bundle which had been left on the ground. She found a foot of the bundle and saw that the wrappings were composed of loose cotton and a piece of linoleum. She noticed that sticking out from the cotton was the head of an infant. The feet were close together and apparently were bound with twine. The body was about three inches in length and she thought the body must have been about twelve inches long.

She little knew what she had found and home in the hurry, but she left it where it was and the discovery was reported to the police. Some other persons went to the place and found the cotton and linen somewhat bloodstained, but no body. The body was not very perishable, reports about people seen in the neighborhood about the time when the body was found, saw the body, plain feet and the time when the Constable visited the place. Their presence is supposed to account for the disappearance of the body.

An elderly woman, only partially clad was seen in the neighborhood this morning. Her strange behavior attracted the attention of many persons who were interested in the mystery.

The County Board of Education has decided to give general training in the lower grades as determined by the results of your work's year.

A DOWNTOWN FIRE.

A large building is said to have lost distinction of being the first county in the United States to introduce the machine of manual training in all its branches. It is now offered in many cities and towns, but the country never has been general in this country. The movement there is the attraction of visitors throughout the country, and especially those in California. The summer school at Thorne, which is being conducted by Prof. A. C. Chamberlain, attended not only by teachers from Los Angeles, but by instructors from other States, and the interest they are displaying in the Sloyd, drawing, and paper work seems to indicate that the movement is upon us.

The sum deposited \$50 bail was paid for their appearance before Justice Morgan this afternoon.

Count Figures Expected.

The people of Los Angeles are soon to be officially informed how many more persons are added to the recent census enumeration. The figures are expected daily from Washington. Census Supervisor Deacon has a force of five assistants him in enumerating the manufacturing industries of the county. The figures thus far taken indicate that the number of persons engaged in agriculture county devoted to manufactures and mechanical industry, four-fifths of them stand within the last decade. Business that has been 10 per cent. better than last. The census enumerators are being paid.

Its Best Meeting.

The Los Angeles Camera Club held the largest and most enthusiastic meeting of its kind ever held, with over 200 members present. Fine lantern slides of California and Grand Canyon

scenes were shown, and a paper on "Motion Photography" was read by Mr. Black and several other speakers were present.

A club emblem in the form of buttons to be worn by the members was selected. The design is a large typewriter with a camera. Club colors, green and pink, were chosen. The club now has over 300 members. The next meeting will be held in new quarters. On September 9 and 10 the club will have an outing at Santa Catalina Island.

NEWS AND BUSINESS.

The edition of the Midwinter Number of The Times, price 10 cents, with full color illustrations, is the most complete, as well as the handsomest, publication on Southern California yet issued. Copies may be had at the Times office or at any of the leading book stores. If you want something handsome to send to an eastern friend, this specially prepared number is what you are seeking. Nothing in illustration or text which will offend the taste of the Southwest, its climate, its products, its soil, its people, is equal in size to ordinary 50-page book. Price 50 cents per copy.
